

neXgro LOGISTICS is the lifeline of trade – the art of getting the right product, to the right place, at the right time, every time.

At neXgro Logistics, we are the driving force behind South Africa's agricultural supply chain. We specialise in transporting maize, soya beans, wheat, barley, sorghum, sunflower and agricultural byproducts — moving these essential commodities seamlessly from farms and silos to leading factories and mills and back across the nation.

Our strength lies in our people. A dedicated team of skilled professionals, armed with deep agricultural expertise and a passion for precision, works tirelessly to ensure every load arrives safely, efficiently and on time. From meticulous planning to final delivery, we manage every step with care and reliability — earning and maintaining the trust of our clients.

Our fleet is built for performance. With Side Tipplers, Back Tipplers, Walking Floors, Bottom Dumpers, and selectively used Bulk Trailers, every vehicle is maintained to the highest standards and equipped with advanced technology to meet the unique challenges of grain transport. Through strategic planning and resource allocation, we maximise operational efficiency — even in the most demanding offloading conditions.

We understand the critical role we play in sustaining South Africa's agricultural economy. **Through excellence, reliability, and innovation, neXgro Logistics remains committed to driving our clients' success — and contributing to the growth and prosperity of the agricultural sector.**

WHAT WE OFFER

Diesel supply

We understand that fuel costs are a significant operational expense for transporters. That's why neXgro Logistics has partnered with a trusted diesel supplier to offer our transporters competitive fuel rates. Our strong supplier relationships enable us to secure favourable pricing, helping you optimize costs and maximize profitability while keeping your fleet moving efficiently.

Partner with us

Join neXgro and let's grow together – driving South-Africa's agricultural success, one load at a time.

Dedicated routes

At neXgro Logistics, we're all about long-term partnerships. We offer dedicated routes year-round, giving our transporters steady, reliable work. Whether you're experienced or just starting out, you can count on us to provide consistent, profitable routes and a supportive team. Join neXgro and let's grow together in South Africa's agricultural transport industry.

Load Management System (LMS)

Discover the next level of logistics management with our comprehensive Load Management System (LMS). This advanced digital platform provides seamless coordination and real-time access to critical data, accessible 24/7 across multiple devices. Developed in collaboration with logistics experts, our LMS facilitates smooth movement of dry bulk products while providing unmatched visibility throughout the supply chain.
