

## neXgro – shifting boundaries in **ON-FARM STORAGE** with neXgro Storage.

neXgro Storage is in partnership with PGS and MYSILO.

**neXgro Storage** has a direct focus on delivering comprehensive products to Producers that includes both grain management and storage.

Farm storage is increasingly becoming a strategic option for Producers to determine where and when grain will be stored. On farm grain storage assist in alleviating the pressures created at grain offloading points.

**MYSILO®**

- Largest manufacturer of silos and handling equipment in Europe
- Manufacturing plant of 300 000m<sup>2</sup>
- Latest innovation and technology in advanced equipment
- High quality product of self-storage solutions
- Affordable prices

**PREMIUM**  
GRAIN SOLUTIONS

PGS has a range of excellent service departments that include project management, technical expertise, site layout planning and design, imports, exports to other Africa countries and a panel of expert silo construction contractors.

With the collaboration of the above three companies, the MYSILO brand will be marketed and built with great success. They bring a unique combination of specialist services to the market.
